

JobTIPS

Key Points - Finding Online Applications

1. Find the company's official website.
2. Find the Jobs / Careers / Employment section on the website.
3. Look for key words like, "Employment opportunities," "Join our team," "Job openings," etc.
4. You might be required to indicate what kind of job you are looking for and the location before you can even reach the application.
5. You might even need to choose specific store locations in your home city that you are able to work in.
6. When you reach the application, you might be able to print it out. However, many big companies require that you complete the entire application online and submit it electronically.
7. You have to complete the application according to the company's rules.
