

Organizing Space and Materials

I want to work at the zoo when I finish school. Keeping up with my materials at school will help me keep up with materials at the zoo.

If I lose my homework, I will not pass the assignment.

If I don't return the calculator in math class to the correct drawer, other students won't be able to find them and they will be mad at me.

This will be the same at the zoo. If I forget the keys I will not be able to get the food to feed the animals.

If I don't return the rakes and shovels to the storage shed, no one will be able to clean cages

.

By using my checklists at school, I am practicing a skill that I would need in a job at the zoo.
